

# Quadrat Field Study

I am in Transect \_\_\_\_\_

I am in SQUARE # \_\_\_\_\_

Draw a picture of the bristly ox tongue plants in your square here:

Imagine you can move all the plants next to each other in one space. Draw that here:

**Estimate** (don't count!) how much Bristly Ox Tongue you see compared to all the rest of the plants in your square.

Circle your *estimate* (What is the **fraction** of bristly ox tongue plants to all other plants?):

$0/4$

$1/4$

$1/3$

$1/2$

$2/3$

$3/4$

$4/4$
